Request Received: 8/27/2024 Requestor: Mari Nelson Telephone: 401-255-1061 HOA: Green Valley Desert Hills IV

Location of Proposed Service: Intersection of S Abrego and E Continental 18 R13E 23

Service Requested: **Specifically those drivers at the intersection, heading east on Continental, in the right lane without any intention of turning right onto south Abrego, instead accelerates at a high speed with the green light signal and, will deliberately swerve into left lane before lane ends and cut off the driver to his left (in the correct lane), intentionally to be first. There is posted signage for right turn lane only, but ignored. I am requesting that interection be RE-STRIPE like the following intersection at Continental and Whitehouse Canyon Road. There, the lanes are divided and clearly maked for a left turn north to La Posada; to continue traveling east and yellow strins designating a right turn only lane onto Whitehouse Canyon Road up to Madera. These road strins do help to regulate traffic**

Location of Proposed Service: See List below

R13E

Service Requested: Please evaluate the feasibility of installing left Turn Signal arrows that provide for flashing yellow like those at many intersections in Tucson for the following Green Valley Intersections:

Camino Encanto & Camino Del Sol
Continental and Frontage Road - Left into Continental Plaza and Left from Frontage to Continental
Continental & N Bound access to I-19

Status: Reference numbers See Click Fix 17488352 and Service Request 25004807 9/12/2024 ST Thank you for your patience on this SR. This was a large request and we are still working on the response whether left turn phasing is warranted at a few of these intersection. I have a quick summary of some of the intersections which we have already reviewed.

GVCCC Request#: 3122

Completion Date:

PCDOT can only respond to traffic signals owned and maintained by PCDOT. The following intersections are not owned or maintained by PCDOT:
•Continental Rd and Northbound I-19 on- and off-ramp (Arizona Department of Transportation)
•Continental Rd and Whitehouse Canyon Road (Town of Sahuarita)
Some of the intersections have protected-only left turn phasing. These approaches are protected-only

Request Received: 12/12/2024 Requestor: Johannes Graefe Telephone: HOA: San Ignacio Vistas II

Location of Proposed Service:

19 R13E 5

Service Requested: Turning left (East) out of San Ignacio Vistas II from S Camino del Tejon onto Calle Tres is extremely dangerous due to the overgrown vegetation that blocks the view of oncoming traffic coming up the hill (West). The speed limit on Calle Tres is 35 MPH, but vehicles traveling west frequently exceed 50+ MPH. With the current obstruction from the vegetation, it is nearly impossible to see oncoming traffic, creating a situation ripe for a severe accident. I have had several near misses because I couldn't see vehicles approaching at high speeds. If the vegetation is not promptly removed, it is only a matter of time before a fatality occurs.
